Language: English Brand New Book ***** Print on Demand *****.Excerpt from The Ontario High School Geometry Theoretical The Ontario High School Geometry is intended to cover the course in Theoretical Geometry, begun in the Lower School and completed in the Middle School, as defined in the Programme of Studies for High Schools and Collegiate Institutes of the Province of Ontario. In deference to the wish of the teachers of mathematics of the Province, this Geometry is divided into Books with numbered propositions. While the theoretical course is complete in itself, it is assumed that its study has been preceded by the usual course in drawing and measurement. A considerable number of practical problems are given in the exercises. These should be worked out carefully, and, in fact, all diagrams should be accurately and neatly made. The book contains an abundant supply of carefully selected and graded exercises. Those given in sets throughout the Books will be found suitable for the work of average classes, and just about sufficient in number to fix the subject-matter of the propositions in the minds of the pupils. All the problems contained...
