Brand New Book ***** Print on Demand *****.It has been said that the professional and professorial exponents of economic science confine themselves to variants of a single theme. Usually belonging to the master class by birth and education, and at any rate attached to that class by the ties of economic interest, they are ever guided by the conscious or subconscious aim of providing a theoretical justification for the capitalist system, and their lives are devoted to inculcating the art of extracting honey from the hive without alarming the bees. Achille Loria is an exception to this generalisation. Professor of political economy at Turin, and one of the most learned economists of the day, he is anything but an apologist for the bourgeois economy. With the exception of the first volume of Marx s Capital, no more telling indictment of capitalism has ever been penned than Loria s Analysis of Capitalist Property (1889).
