That admirably expresses the point of view of this book - a point of view that must be controlling in any discussion of budget-making in a democracy. The budget in practically all current discussions is treated as an incidental or minor thing. It is regarded primarily as a matter of finance or of accounting procedure. It is viewed too often merely as a question of the manipulation of figures. That it is of the very essence of government seems to have escaped those responsible for the contemporary budget discussions. Even when they formally in so many words acknowledge the tremendous social significance of the budget, their whole discussion of it belies their formal statement of its importance.
