CHINA AIRBORNE: THE TEST OF CHINA S FUTURE (PAPERBACK)

Random House USA Inc, India, 2013. Paperback. Book Condition: New. Reprint. 198 x 128 mm. Language: English . Brand New Book. From one of our most influential journalists, here is a timely, vital, and illuminating account of the next stage of China s modernization--its plan to rival America as the world s leading aerospace power and to bring itself from its low-wage past to a high-tech future. In 2011, China announced its twelfth Five-Year Plan, which included the commitment to spend a quarter of a trillion dollars to jump-start its aerospace industry. In *China Airborne*, James Fallows documents, for the first time, the extraordinary scale of China s project, making clear how it stands to catalyze the nation s hyper-growth and hyper-urbanization, revolutionizing China in ways analogous to the building of America s transcontinental railroad in the nineteenth century. Completing this remarkable picture, Fallows chronicles life in the city of Xi an, home to 250,000 aerospace engineers and assembly-line workers, and introduces us to some of the hucksters, visionaries, entrepreneurs, and dreamers who seek to benefit from China s pursuit of aeronautical supremacy. He concludes by explaining what this latest demonstration of Chinese ambition means for the United States and for the rest of the world--and the right ways for us to respond.
