CreateSpace Independent Publishing Platform, 2010. Book Condition: New. Brand New, Unread Copy in Perfect Condition. A+ Customer Service! Summary: Native Americans believe that Tobacco is one of the most sacred gifts of the Great Spirit to his People, along with corn, beans and squash. I also believe that tobacco is a great gift of the great spirit of the natural world, and I want people who enjoy tobacco to be able to liberate themselves from the thrall of the multinational so-called "Tobacco companies," whose products really have nothing to do with the sacred herb and are nothing more than industrialized poison. Now I'm sharing my years of experience raising natural Tobacco in what I hope is a useful, interesting and thoughtful book - The Cultivators Handbook of Natural Tobacco. As I hope you'll come to see, the ultimate aim of this book is to make it possible for smokers to no longer be enslaved to criminal corporations for their personal supply of pure, natural tobaccos. In addition to sharing my own growing experience, I've reached far into the past to find tobacco growing books written by masters of the subject, from Cuba to the Philippines, from America to Brazil. In an all-new Section Two I've gathered together the best advice from these old-time masters regarding every aspect of Tobacco cultivation, from which varieties grow best in which soils and environments, to the carefully guarded secrets of curing and flavoring the primo leaves of this unusual plant. Also, I'll give you an internet address where you can download all of these original, invaluable tobacco resources for free in PDF format for easy reading on your computer or any reading device.
